

Home Maintenance Schedule

Monthly

1. Check that fire extinguisher(s) are fully charged. Re-charge if necessary.
2. Test and inspect smoke, heat and gas detectors.
3. Examine heating/cooling air filters and replace or clean as necessary. Use your electric bill as a reminder.
4. Clean gutters and downspouts. Ensure that downspouts are secure, and that the discharge of the downspouts is appropriate.
5. Carefully inspect the condition of shower enclosures. Repair or replace deteriorated grout and caulk.

Annually

1. Have your heating and cooling system(s) serviced if inspections and service were not performed in the fall or spring.
2. Check water heater to be sure it is secure.
3. Clean out dryer exhaust vent system and underneath dryer.
4. Inspect, repair and reseal tile grout in bathrooms, kitchens, and any other areas.
5. Make sure that you know where the main cut-off valves or switches are for the home's plumbing system, electrical service, and gas service.
6. Make a quick inspection of the exterior of the house. Check the foundation for cracking, blocked vents, and leaks. Check caulking around doors and windows.
7. Check the roof for leaks.
8. Examine the electrical panels, wiring and electrical components for evidence of overheating. Flip the breakers on and off to ensure that they are not sticky.
9. Check faucets for drips and the rest of the plumbing for leaks.
10. Secure loose toilets, or repair flush mechanisms that become troublesome

Semi-Annually—Fall and Spring

1. Change the batteries in your smoke detector twice a year.
2. Drain a gallon or two of water from your hot water heater at least twice a year to extend its life expectancy.
3. (Fall) Check chimney for loose or missing mortar. Have chimney professionally cleaned .Make sure damper closes tightly.
4. (Fall) Have heating system inspected and serviced. (Spring) Have cooling system inspected and serviced.
5. Clean leaves and trash out from under decks and porches. Pull mulch away from foundation walls.
6. Trim back tree branches and shrubs to ensure that they are not in contact with the house.
7. Inspect driveways, walkways, decks, porches, and landscape components for evidence of deterioration, movement or safety hazards.
8. Test the overhead garage door opener, to ensure that the auto-reverse mechanism is responding properly. Clean and lubricate hinges, rollers and tracks on overhead doors.
9. Replace or clean exhaust hood filters.
10. Clean, inspect and/or service all appliances as per the manufacturer's recommendations
